DIV OF OIL GAS & MINING

Subject/Comments:

On 29 September LE Ranger Ward flew over the mine site where he saw a front end loader from the mine which appeared to be knocked over on its side on the Salt Creek road. He phoned me to let me know about it. On 01 October a Grand County employee encountered the loader and contacted Ranger Ward about it. On 02 October Ranger Ward advised me that the new Moab address for Earl Shumway is 455 Huntridge and contact phone numbers are 259-0243 and 260-0036. He spoke with Mrs. Shumway who advised that Earl is aware of the loader, that it fell off a trailer during transport. She also said that Earl had been sick and that he hadn't been able to get back out to the site to remove the loader.
